

Urban Forestry

Street Tree List for Belpre, Ohio and Southeast Ohio

prepared by

Ann Bonner

ODNR Division of Forestry

360 East State Street

Athens, Oh 45701

Ann.bonner@dnr.state.oh.us

740-589-9910

The following tree cultivars (varieties) are recommended for planting in treelawn or retail and commercial planting sites where stress from compaction, pedestrian abuse, pollution etc. has previously troubled other types of trees. The trees listed below have been used successfully in many communities. However, please remember that the success of any tree planting depends upon the individual planting site as well as the tree and the care it receives.

For specific information about any of the trees for your particular planting site, please contact the Division of Forestry or a member of the Ohio Nursery and Landscape Association.

Small Trees (under 25qin tree lawns of at least 3q . under wires OK

- ❑ ***Acer ginnala*** Amur maple
- ❑ ***Acer platanoides*** 'Crimson Sentry' crimson sentry Norway maple
