Borrow or Spoil Sites Requirements for OEPA and MS4 Permitted Construction Sites			Permit requirements
Captive * Created to serve a single permitted, construction site.	Any size	Permittee or Co-Permittee has operational control of the borrow/spoil site	* May be covered under the OEPA CGP & the MS4 Sediment Erosion Control permit for the construction site. * The SWP3 for the permit must provide the location & BMPs.
		Permittee or Co-Permittee does NOT have operational control of the borrow/spoil site	* Must submit an OEPA CGP Co-Permittee NOI. * Must submit an MS4 Sediment Erosion Control permit that includes an SWP3 for review.
Multiple * Serves multiple construction sites. * Viewed as a separate construction activity.	> or = to 1 acre		* Separate SWP3 and NOI for the OEPA CGP permit and the local MS4 Sediment Erosion Control permit.
	< 1 acre		* No permit required * If the activity causes a violation of Ohio's water quality standards (i.e.: turbidity in a stream) then the violation would be subject to OEPA enforcement action or enforcement action from a local ordinance. BMPs are strongly recommended to avoid violations.
Note: * Some borrow sites may be industrial mines. If so, they are regulated under Ohio EPA's Industrial Stormwater NPDES Permit. * In a 12-month period, borrow sites that remove > 5 'of any earthen material or disturb more than 1 acre must have an ODNR Resource Management Mining Permit. This is for material that has commercial value, even if not sold. ORC Chapter 1514 is the reference. * For recommendations of Borrow or Spoil site areas, or BMPs for sediment erosion control: Please contact Kathy Davis, Washington Soil and Water Conservation District, 740-885-3312.			

Acknowledgment of Requirements

By signing below, I acknowledge that I have read and fully understand the requirements outlined in **Exhibit B: Borrow / Spoil Site Requirements** for the City of Belpre. I agree to comply with all applicable regulations and understand that failure to do so may result in enforcement actions or penalties.
